Styling your habitat
for over
40 years

Ground Floor Redbrick Mill 01924 468960 www.habitat.net

Welcome to the fifth edition of Redbrick's free Furniture and Design magazine. Inside we bring you the latest news from the complex, some hand-picked products from our retailers and great ideas on design and the latest looks for your home.

Redbrick opened its doors more than five years ago and since then it has become the design destination of the North. We like to think of Redbrick as a 'lifestyle complex' as nowhere else will you find a more comprehensive and accessible mix of furniture, design, interiors, art and gift stores all under the one amazing roof. And with our three great cafés and free parking it really is somewhere you can spend the whole day, perusing what we have to offer, at your leisure.

Some of the biggest names and cutting-edge brands in interior design, such as Habitat, Heal's, Feather & Black, New Heights and recent arrivals Lombok and B & B Italia, have made Redbrick their home. The store now boasts over 25 different retailers, each with their own unique approach to design and home furnishings.

There are ideas and products for every aspect of the home found over Redbrick's four floors of stores, including lighting, soft furnishings and accessories. And while you are buying for your living space why not indulge yourself or a friend with fabulous gifts of artwork, jewellery or flowers.

At Redbrick we not only aim to bring our customers the best retailers with the biggest choice of products on the market, from the finest manufacturers and designers, but we also aim to inspire and inform too. We hope that this magazine captures a little of that spirit and that we can share our passion with you.

We hope you enjoy your Redbrick experience and share our enthusiasm for great design, please take a copy of the magazine with our compliments and we look forward to welcoming you back very soon.
